**Test #1 on Python:**  
**Variables, Types, Lists, Loops, Functions**

Please keep your test face down until I say Go.

I didn't bring a pencil/pen. Did you?

There's no class in here afterwards, so you can take your time. I'll cut it off at 2:40.

Open note/book, but closed laptop. No electro-gizmos are allowed.

Hint: if you don't know the answer to something there may be a hint elsewhere in the test.

Give to one of the proctors or to me  
please
